

LABQUALITY

CERTIFICATE

2022

Laboratory MF DZIEDNIECIBA

has participated in the External Quality Assessment Schemes organized by Labquality

Clinical chemistry

Allergy in vitro diagnostics; Total IgE and ECP
Bilirubin, conjugated *
C-reactive protein (CRP) for analyzers *
Erythrocyte sedimentation rate *
Faecal occult blood
General chemistry, Serum A *
Haemoglobin A1c *
Hormones A *
Hormones B *
Myocardial markers *
Parathyroid hormone
Sputum cells
Troponin I and troponin T, POC
Tumour Markers and Anti-Müllerian hormone *
Urine particle identification *
Urine quantitative chemistry *
Urine strip test A, POC *
Urine strip test B, particle count and estimation of density *
Vitamins A, E and D -metabolites
Clinical haematology
ABO and Rh grouping *
APTT, INR and fibrinogen *

Antibody screening and compatibility testing *
Antiglobulin test, direct *
Basic blood count *
Leucocyte differential count and evaluation of blood cell morphology - virtual microscopy
Leucocyte differential count, 5-part
Prothrombin time *
Reticulocyte count *
Clinical immunology
Antinuclear antibodies
Rheumatoid factor and citrullin peptide antibodies *
Thyroid gland antibodies *
Clinical microbiology
Antistreptolysin *
Borrelia burgdorferi, antibodies *
Chlamydia trachomatis and Neisseria gonorrhoeae nucleic acid detection *
Faecal culture *
HIV, antibodies and antigen detection *
Helicobacter pylori, antibodies *
Hepatitis B and C serology *
Human papillomavirus, nucleic acid detection *
Multiple respiratory virus nucleic acid detection
Parasites in faeces, virtual microscopy

Rotavirus and adenovirus, antigen detection *
SARS-CoV-2, antibodies
SARS-CoV-2, antigen detection *
SARS-CoV-2, nucleic acid detection *
Salmonella culture *
Sexually transmitted diseases multiplex, nucleic acid detection *
Streptococcus agalactiae (GBS), culture
Streptococcus pyogenes (Group A), detection in pharyngeal sample *
Syphilis serology *
Throat streptococcal culture *
Urine culture
Clinical pathology
Clinical cytology - Gynaecological cytology (liquid based), virtual microscopy *
Clinical cytology - Gynaecological cytology (smear), virtual microscopy *
Histological staining techniques *
Histopathology, virtual microscopy *
Pre- and post-analytics
Preanalytics, urine and blood sample collection

Issued 31.12.2022

This certificate is valid 12 months from the date issued.

*) EQA scheme is accredited according to ISO/IEC 17043 standard.

Please see participant's report for each EQA round for performance data.

Juha-Pekka Nuutinen
General manager
